Address: 4130 S Eden Rd Kennedale, TX 76060
Work Area: USA

COMPANY OVERVIEW

Rudy & Associates is a Service-Disabled Veteran-Owned Small Business (SDVOSB) with more than 50 years of experience in the metals industry, supplying critical raw materials to the aerospace, defense, shipbuilding, and military markets. Established in 1972, the company has built a national reputation for delivering hard-to-find grades, exotic alloys, and specialty metal tubing used in aircraft, armored vehicles, naval vessels, and other mission-essential applications. With a combined 115 years of industry expertise, Rudy & Associates provides a wide range of metals—including carbon, stainless steel, aluminum, alloy, titanium, and high-temperature materials—supported by value-added services such as machining, shearing, and precision saw cutting. As a long-standing supplier to the Defense Logistics Agency (DLA) and major defense contractors, the company is deeply familiar with federal requirements, quality standards, and the urgency of military supply chains. Rudy & Associates is currently pursuing ISO certification to further enhance its quality management and traceability systems.

DIFFERENTIATORS

- 50+ years of metals expertise supporting aerospace and defense
- SDVOSB-certified supplier with proven federal performance
- Awarded 100+ DLA contracts monthly with consistent reliability
- Specialist in exotic, hard-to-find metals and nonstandard sizes
- Fast machining, shearing, and saw-cut services for quick turnaround
- Strong quality control and traceability for military-grade materials

CORE COMPETENCIES

Precision Machining

- High-accuracy machining for aerospace, military, and industrial materials, ensuring components meet strict dimensional requirements.

Shearing & Metal Processing

- Controlled shearing of sheet and plate metals with clean, precise cuts for manufacturing and defense applications.

Industrial Saw Cutting

- High-tolerance saw cutting for tubing, bar, and exotic alloys, including cut-to-length programs for rapid fulfillment.

Specialty Metal Sourcing

- Procurement and distribution of hard-to-find grades and exotic alloys including stainless, titanium, nickel alloys, carbon, and high-temperature metals.

Value-Added Metal Services

- Tube redraw, OD/ID cleaning, centerless grinding, honing, heat treating, material testing, and export packaging.

Inventory & Supply Chain Programs

- Customized inventory management, JIT programs, electronic invoicing, and source-inspection certified documentation.

PAST PERFORMANCE

Defense Logistics Agency (DLA)

- Consistently awarded 100+ contracts per month for multiple years; proven performance supplying specialty metals, tubing, and exotic alloys for mission-critical military applications.

Defense Subcontractors

- Long-term supplier of raw materials used in aircraft, armored vehicles, naval vessels, and other defense systems.

Aerospace & Military Manufacturing

- Decades of experience providing hard-to-find grades and high-performance metals to support aerospace production and modernization programs.
